

4G. Texas Water Development Board Required Tables

The Texas Water Development Board requires summary tables showing specific information on all water management strategies. Those tables can be found in Appendix Z of this report. The tables are based on information from the Texas Water Development Board online planning database (DB12) and reflect the most current information in the database at the time of the printing of this report. Subsequent adjustments may be made to the database and an update to these tables may be made through an errata to this report. There may be slight numerical differences between the TWDB online planning database and this printed regional water plan due to rounding associated with the regional water plan preparation and online data entry. In any and all instances where numbers in the regional water plan and the online planning database do not match, the data in the online planning database (DB12) shall take precedence over the associated number in the regional water plan for the purpose of development of the State Water Plan.
